U. 'S. MEDIATION.

LONDON, June 9.—The minster Gazette says a rumor is current from a well informed source that it has been proposed in responsible 🦪 quarters that the United States mediate between Great Britain and the 🥨 Transvaal. It is added that the suggestion is being considered and that it is not improbable that such mediation may be undertaken.

Quebec's Location.

Most people are accustomed to think of Quebec as being on the very edge of the arctic circle. As a matter of fact, most of the great capitals of Europe are further north. London, for in stance, is full 325 miles to the north of the Canadian city, while Glusgow is 675 miles and St. Petersburg, 1,025 miles nearer the north pole. Even Paris, which everyone considers as essential y a southern city, is 150 miles further north than Quebec. Going westward from Quebec the same parallel passes near Duluth and just touches the mouth of the Columbia river, crossing the Pacific, it rests on the northern part of Japan and the more southerly points in Siberia. Following the same parallel in the eastward, it passes near Lyons in France and close to the boundary line between Switzerland and Italy -going far to the south of the German Empire, and across the southern part of Hungary. The Malevalent Piano. The piano has been the causa teterima of quarrels that have sundered meient friendships; it has wrecked many enterprises of great pith and mo-ment: it has disturbed the finer adjustments of the corebral machinery in many literary and scientific workers, has driven studious men from their books to the bottle and has stimulated peaceable citizens to the commission of evil effects of the piano, considered passive, as the school men would sayrom the point of view of the sufferer. But the operator does not come off seathless. A recent writer, Dr. Waetzhold, thinks that the chloroses and neu-roses from which so many young girls suffer may be large attributed to the abuse of the piano. He therefore urges that the "deadly" custom of compelling young girls to hammer on the keyboard before they are 15 or 16 years of ag should be prescribed by public opinion Even at that age the evereise should e permitted only to those who, in ad-

So Said the Jury To-Day in the U. S. District Court.

Verdict Returned in Less Than Ten Minutes.

There were rumors that Wilcoxon might plead guilty and throw himself on the mercy of the court. When the attorneys appeared the case was submitted to the jury without further evidence, the defense presenting no witnesses. The jury retired and in less then ten minutes a verdict of guilty was; returned. Court then adjourned until 2 p. m., when it is expected that Julge Allen will pass sentence. The printer at Muncle, 'Ind., where the letterheads were printed, testified that Mr. Wilcoxon had ordered the letterheads, that he had done several small jobs for Mr. Wilcoxon in the last four or five years and knew him well, that Mr. Wilcoxon took the letterheads away, and he produced the copy that he said was left by Mr.

TRUSTS AND BUSINESS NECESSITY.

New York Commercial: The Sun, discussing a question which just now is worriyng the political platform builders and incidentally is causing many other people considerable uneasiness, says:

The Republican party, and the Democratic party, and every other party, is impotent against the trusts because the trusts arise from a business necessity. The E Legislatures might as well make statutes against

Not that there are not trusts that are built upon wind and sand, but those that stand and those that fall will be governed by the laws of business and not by political declamations. This view is one which especially

appeals to business men, because these nen are accustomed to view things from the standpoint of common sense, and to reject theories for which they are unable to find any practical founds tion. The substantial trust organizations have resulted from business conconservatively and honestly, in the interest of all parties concerned, the public included, will remain. The others, those "built upon wind and sand," will fail, as they deserve to fail. There is no reason why any one should become hysterical over the trust question. The question is interesting and important, but its solution is not beyond the capacity of the Amercan people. The great majority of business men are honest; they are also intelligent and far-seeing, and they have no intention of abusing the public, upon whom they depend for

Shortly after the election of Mayor Stadler, when the Democratic campaigners expected to have their own way as to the mayor's appointments, the Decatur Review, then still known as the "reform organ," stated that the best people of the city favored an Increase of the mayor's salary. Assuming that the "push," who at that time favored an increase in the mayor's salary, were "the best people of the city," it is not out of place to remark that the "best people of the city" are now engaged in a campaign to enjoin the payment of the increased salary. Moral: Even the "best people of the city" may get cranky when they can't have their way about every-

There never was a time in the history of the party in Illinois when there was a greater determnation on the part of the rank christened "the Kansas & Utah Short and file of the party to submit to no trickery than now and leaders inclined to indulge in trickery might as well take warning.

The Democratic reformers opposed the re-election of B. Z Taylor because they claimed he was corrupt and now they oppose the mayor they assume to have elected because they claim he wants too much pay. Their next candidate will probably be from the organization of the socs.

The New Orleans Times-Democrat refers to it as the McKinley war in the Philippines. Some one ought to call the attenton of that paper to the time it exploited the McKinley tariff bill as McKinlevism.

The time to cease temporizing with the Tagals seems to have been reached some weeks ago. The peace commissioners should be recalled and a lot of Mamla rope should be substituted.

Just now the Democratic reformers are more concerned about the mayor's salary than they are about the cost of the improvement of the water works.

Senator Mason, while investigating the adulteration of food, might take a day off and investigate this spurious natriot of his.

DEAR SIR —I wish to bear testimony to the great elibeacy of your "Four O" remedy in threat and lima aliments. As a rule I have been skeptical of the morits of proprietary medicines, but have to confess that a test of your 'Four O' is convincing that at least one ready made remedy is worthy of use. My children all take it with out the least objection, from oldest to youngest, and is particularly noticeable that benefits almost immediate A single dose will check most coughs is their beginning, it gives an unbroken rest at night. In my family "Four O" is simply indispensable and I recommend itunqualifiedly.

NEW YORK, June 10.-James J. Jeffries is champion of the world. With a wonderful right-hand punch in the 14th round he undid Robert Fitzsummons and wrested the honor from him, , the honor which the Australian has to long held. It was a wonderful battle this that packed the Coney Island Sporting club last night with 10,000 men, and the fore part looked more like Fitzsimmons. The men who prepared him for his fight claimed, he succeeded Worked wonders with him. They taught him nearly perfect defense, improved his foot movement and instructed him in the methods of infilting punishment. The transition since he appeared last has been little short of miraculous. "Fitz" Good as Ever. The defeated man was just as good

as when on the crispy morning on the plains of far-away Nevada he lowered the colors of the then peerless Corbett. He was just as active, just as clever, just as tricky and just as fearless of punishment. He went unfaiteringly to his defeat. He was the aggressor von at moments when he was bleeding and unsteady, and when stunned by he blows he received he recled instinctively toward his opponent.
